Bullet resistance

Personal security and building protection – for your building you need a solution approach which can be accomplished with aluminium systems in a wholistic and compatible way. This is achieved by the WICONA series for curtain walls, windows and doors. Each of them can be executed in bullet resistance, in combination with other additional functions. The requirements for bullet resistance are achieved with WICTEC curtain wall series, simply by addition of the standard construction with a special aluminium planking.

System test results / CE product pass in accordance with DIN EN 13830

See classification of the respective WICTEC curtain wall series.

Technical performance:

Bullet resistance according to DIN EN 1522

- The bullet resistance requirements for curtain walls are regulated Europe wide in the standard DIN EN 1522. The WICTEC curtain wall series have been tested according to this standard in various profile combinations, and successfully been certified in class FB4.
- Bullet resistance can be combined with burglar resistance in the classes RC1N, RC2N, RC2, RC3 according to DIN EN 1627.

Possible combinations with other WICONA product series in bullet resistance in class FB4:
