» Concealed handle – outstanding design

Completely integrated

Looking at the window straight on there is not even a window handle visible: it is concealed in the sash, adding to the harmonious appearance. This effect is further heightened by the option of coating the window handle in exactly the same colour as the frame.

Designing the city of the future also means creating accents with colour or highlighting the individual design of the structure. The WICONA special colour scheme creates the basis for exclusive shades for an individual appearance.

The concealed handle is available for use with the following WICONA window series:

- WICLINE 75 MAX
- WICLINE 75 TOP
- WICLINE 75 evo
- WICLINE 65 evo
- WICLINE 65 HI

Award winning solution

The window handle is hidden in the sash, adding to the harmonious appearance of the window.

This innovative design idea was awarded a prize from the international expert juries at both the **iF DESIGN AWARD 2018**, the **Red Dot Design Award 2018** and the **GERMAN DESIGN AWARD 2019**.

The iF DESIGN AWARD 2018 was received in the "Product" discipline, "Building Technology" category. This award is presented once a year by the oldest independent design institution in the world, the iF International Forum Design GmbH in Hanover.

The concealed window handle also won the German Design Award 2019 and the Red Dot Award: Product Design 2018. The expert panel awards the internationally recognised quality symbol only to products which demonstrate convincing design quality. The Red Dot Award: Product Design therefore represents one of the most noted evaluation procedures for creative design and innovation.
